

Amendments to the Specification:

Please delete the paragraph beginning at page 6, line 7, which starts with "Likewise, the use of"

Please delete the paragraph beginning at page 6, line 14, which starts with "Moreover, even if"

Please replace the paragraph beginning on page 8, line 13, with the following amended paragraph:

ai The hook and loop type fasteners can be attached to the elements of the invention by sewing or gluing or preferably both sewing and gluing. Sewing can be accomplished using marine grade thread. It is preferable to use thread sold commercially by Saunders Thread Company that has been spun with fiber sold commercially under the trademark NOMEX® by E.I. du Pont de Nemours and Company. It has been found that clear vinyl glues will work as will many other glues. It is preferred to use glue sold commercially under the trademark Quickgrab™ QUICKGRAB™ by Quick Grab, Inc.

Please replace the paragraph beginning on page 9, line 15, with the following amended paragraph:

ai The insertable screen should be woven in a manner to substantially block sunlight while allowing a person inside the passenger compartment to view the outside. For example, it is preferred that the insertable screen be a woven fabric of vinyl coated polyester yarn capable of screening at least some sunlight. While many products may work, a preferred example is a product sold by Phifer Wire Products, Inc. under the trademark Phifer SUNTEX®. On its website, www.phifer.com, Phifer claims that Phifer SUNTEX® product "offers excellent outward visibility and good ventilation" and blocks over 75% of the sun's rays.
